## Local News

(By our local Correspondent)

The committee wish to take this opportunity of thanking those who so kindly helped in any way of making our recent play "Facing The Music" a success. Net proceeds, which has been turned into the Ladies Aid account amounts to \$170.15.

Carbon was the scene of a little excitement on Monday April 25th, when Geo F. Tutt, our local "Barney Oldfield" was arraigned before Justice of the Peace, H. Peters, on a charge of "Neglecting to pay his license, as a taxi-driver between Carbon and Grainger."

Mr J. J. Greenan, our local Barrister conducted the prosecution on behalf of the village. Three witnesses were called to prove that Mr Tutt had accepted fares from passengers between Carbon and Grainger. Mr Tutt conducted his own defence, and pleaded Not Guilty, but after the testimonies of Town Constable Fletcher, Alex Reid and F. W. Wilson were taken, By-law No 17, of Carbon Village was presented, the judge had no alternative but to find Mr Tutt Guilty, and he then fined him \$5.00 and Costs, and also ordered him to take out a licence immediately.

## Signs of Summer

Bill Poole entertained on the advent of his thirty-third Birthday.

The Farmers Exchange Truck is kept so busy these days that they have to keep it in the Ice House at nights, to give the Engine a chance to cool off.

Owing to our information being a little premature, we must correct the paragraph which appeared in last week's edition in regard to early closing and Wednesday half holidays in Carbon. This paragraph should read Commencing on May 1st, all stores will close promptly at 6-p.m. and during May June July and August all stores will close at 1-p.m. on Wednesdays. We realise that this is only short notice for the many people who patronise Carbon, but we think that after a little while, everybody will get the habit of shopping early, and that there will be no confusion whatever.

Seeding is nearly completed in this locality, and as is usual with the optimistic farmers, they are all hoping for a "million dollar crop." We are hoping in the same direction too.

A very successful Dance was held in the New Community Billiard Hall on Friday last. There was a Bumper Crowd on hand and they all reported a heluva time. The Dance was held to help replenish the exchequers of the Carbon Athletic Club. (Gosh these new Clubs do spring up suddenly, but we suppose it's Spring fever,) a considerable amount of money was realised. By the way we wondered why Frank Wilson, has carried such a broad smile lately, but perhaps the hint about him having the Baseball Suit laundered did a little goob after all.

Have you noticed the Queue lined up in front of the Drug Store these nice morning. We suppose they all have their "pers" but one can imagine how parched some of their throats must be standing out in the Blazing Sun, waiting for something or someone to turn up.

The new Pool Room is to be opened shortly and by the looks of things, it is to be some pool room. The proprietor has installed a new up-to-date Bar and Soda Fountain, when the hot dusty days come, it will be possible to step in and get the real cool stuff.

We also notice that Harry Thor-

burn has renovated his pool room, and now the place looks real 'slick' so Carbon can now pride itself of having two good pool rooms any way.

Wonder what has happened to Petty Douglas lately? Haven't noticed him (mind, we said noticed) for quite a long time now, but to be consistent and Bill should be around pretty soon now.

## Canada And Its Coal

The sound national and economic policy for any country is unquestionably to be found in a decision and determination by its people to buy the products of their own country which are available in preference to similar products of any other country. They should adopt such a policy not because of any prohibitive embargo that may be placed by Governments upon importations from other lands—which may lead to monopolistic tendencies and unduly high prices at home—but because it is good national business to keep a country's money at home, working in and for the country, and assisting to develop its resources and industries.

There are always some articles of produce and manufacture which a country cannot itself provide. These, of course, must be imported from other countries which do produce these things. In turn, that country has to buy something it cannot provide at home. Thus is international trade created. And, as is well known, international trade is paid by exchange of commodities rather than in cash. Gold comes into play in international trade when one country imports much more largely from another than it sells to such country. This balance of trade as between two countries also operates to fix the rate of exchange between them. When, therefore, one country buys from another country largely in excess of its sales to such country, it not only has to ship gold to make up the shortage in sales, but it frequently happens it has to pay a premium in exchange rates.

The fact will, or at least should, be appreciated that it is good national business—and what is good in this case for the nation as a whole is good for each individual—for a country to confine its import trade as largely as possible to those things it cannot itself provide, and not to import what it can just as well produce itself.

Let us apply this theory, or principle, which is undoubtedly sound, to Canada and to one particular article of which Canada can easily supply her own needs. We refer to coal. Canada is rich in coal, richer than most countries. There are large deposits in Nova Scotia, on our Atlantic seaboard, and in British Columbia, on our Pacific coast. The Prairie Provinces of Alberta and Saskatchewan are also richly endowed in this respect, particularly Alberta. According to a recent statement by the Mines Branch of the Province of Alberta, fifteen per cent. of the world's unmined reserves of known coal lie in Alberta. The world recognizes the British Isles as one of the greatest coal mining and exporting areas, a miners' strike there disturbs industry and transportation all over the world, yet it is officially stated that, notwithstanding Britain's richness in coal, 70 per cent. of the coal reserves of the British Empire are to be found in the Province of Alberta.

Notwithstanding this great wealth at our very doors, Canadians continue to import tens of millions of dollars' worth of coal every year from the United States, despite the fact of an overwhelming adverse balance of trade against us as between these two countries, and the further fact that there are many things which we ourselves do not and cannot produce and must buy from the south. Approximately \$18,000,000 were paid last year by the people of Manitoba alone for United States coal, to which at least another \$2,000,000 had to be added to cover exchange when paying this huge coal bill.

And all the time the Alberta mines were hungering for the coal orders that Manitoba people were placing in the United States. The working capacity, with present equipment, of Alberta mines is 12,000,000 tons per year, yet because of lack of orders only 7,000,000 tons were mined last year. It would have been good business for Manitoba to have purchased all its coal in Alberta and, by distributing the \$20,000,000 it paid to the United States, provided steady employment for Canadian miners, thus helping to settle prevailing unrest, and at the same time creating a larger purchasing market for the manufacturers, wholesalers and jobbers of Manitoba.

According to a statement made before the Parliamentary Fuel Committee at Ottawa on April 13th by S. J. Cook, chief of the mining division of the Railway Commission, coal production in Nova Scotia, and mines working only to half their capacity in Alberta, Canadians in 1920 imported 15,902,632 tons of bituminous coal from the United States, or nearly three million tons more than in the preceding year.

This is bad business for Canada all round. Quantity production means cheaper production, and by keeping Canada's coal mines working to capacity the production cost per ton will be lowered, because steady employment for miners, without costly layoffs, means a lower wage charge per ton actually produced. Buying Canadian coal means keeping Canada's money in Canada, to be used in Canada's business, employing and paying Canada's own workers, developing Canada's resources, and adding to the turnover and prosperity of every line of Canada's commercial activity.

A customs tariff will not bring about the desired result, but, acting in their individual and collective capacity, the business men and citizens of Canada can do if they will. They will be terribly shortsighted if they fail to take advantage of the opportunity which lies open to them.

### One Phone to Every 10 Persons.

There are 12,004,325 telephone subscribers in the United States, giving an average of one telephone to about 10 persons.

Itch Cured In 30 Minutes.  
Itch, Mumps, and all contagious scratches on human or animal, cured in 30 minutes by Wolfford's Sanitary Lotion. At Druggists.

Samoa boasts a sea worm of extreme slenderness, like a fine straw, which is eaten, like the oyster, both raw and cooked.

### Beavers in Manitoba.

There are more beavers within 100 miles of Winnipeg city than there are in the whole of Northern Manitoba, which commences at any point 300 miles north of here, according to the statement made by J. Morrison, M.L.A. for Rupert's Land, before the committee on agriculture at the parliament building recently.

Chicago is to have a Chinese cafeteria.

## There's a Reason Why Grape-Nuts

makes a helpful breakfast and a profitable lunch for the worker who must be awake and alert during the day.

Grape-Nuts is the perfected goodness of wheat and malted barley, and is exceptionally rich in nourishment.

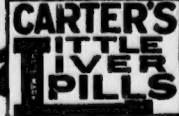

It feeds body and brain without tax upon the digestion.

"There's a Reason"

## Liver and Bowels Right—Always Feel Fine

There's one right way to speedily tone up the liver and keep the bowels regular.

Carter's Little Liver Pills never fail. Millions will testify that there is nothing so good for biliousness, indigestion, headache or sallow, pimply skin. Purely vegetable. Small Pill—Small Dose—Small Price.

### A Hopeful View.

Sir Phillip Gibbs says it is only a question of time until there is another great European war. Well, geologists think it is only a question of time until there is another glacial epoch. From The Cleveland Plain Dealer.

An Unblemished Record. Sensational advertising methods have so often been used to exploit worthless articles that we have always preferred to be very conservative in our claims for Dr. J. D. Kellogg's Asthma Remedy. We keep it before the public by modest announcements relying almost wholly for its more extensive use upon its recommendation by those whom it relieves of Asthma's dreadful agonies. These are now numbered in many thousands. We suggest a trial of Dr. J. D. Kellogg's by every sufferer from Asthma.

### Dickens's Grandson in Navy.

Gerald Dickens, grandson of the great novelist, is a captain in the British navy.

### Heart Disease Relieved In 30 Minutes.

Dr. Agnew's Remedy for the Heart gives perfect relief in all cases of Organic or Sympathetic Heart Disease in 30 minutes, and speedsily effects a cure. It is a perfect remedy for Palpitation, Shortness of Breath, Smothering Spells, Pain in Left Side, and all symptoms of a diseased heart. One dose convinces.

### Immigrants From U.S.

Each of the 48,866 immigrants from the United States in 1920, brought with him average wealth in cash and effects of \$371.77. The total wealth of United States immigration for the twelve months was \$18,166,962.

## A SPLENDID MEDICINE FOR THE CHILDREN

Baby's Own Tablets are the best medicine a mother can give her little ones. They are a mild laxative which quickly regulate the bowels and stomach and are guaranteed to be entirely free from any injurious drugs. Concerning them Mrs. A. D. West, Loreburn, Sask., writes:—"Baby's Own Tablets have given me more satisfaction than anything else I have ever given my children. They are easily taken; always work well and though I have given quite a few to my baby they seem to work as well now as at first, which is something other laxatives seldom do." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Oil of the People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

### Hangs on to Gold.

There is trouble with the Allies over Austria's gold. The reparation commission has requested the Austrian Government to hand over part of its gold reserve, and to give up the keys of the vaults and safes containing the gold, part of which the former Austrian states claim. The Austrian Government refuses to comply, asserting that this demand is a violation of the Treaty of Versailles.

### The Farming Wealth of Manitoba.

The farming wealth of Manitoba in 1919 was \$50,296,000, viz.: Crops, \$158,566,000; livestock, dairy produce, poultry and wool, \$191,730,000. Manitoba farmers won 72 prizes and awards at the 1919 International Soil Products Exhibition in Kansas City. The numbers of livestock in Manitoba were: Horses, 379,356; milch cows, 227,872; other cattle, 553,899; all cattle, 781,771; sheep, 167,170; swine, 261,642; poultry, 2,731,166.

Minard's Liniment Relieves Neuralgia

W. N. U. 1365

## Canadian Auto Industry

Capital Invested in the Industry Totals \$37,000,000.

A preliminary survey of the automobile industry for the calendar year of 1919 has been completed by the Dominion Bureau of Statistics dealing with three different sections covering automobiles, accessories and repairs respectively. The capital invested in the industry totals \$37,000,000, of which Ontario accounts for more than \$48,000,000 with a total of 640 out of the 1,236 plants throughout the Dominion. The total number of employees is 13,084, with a payroll of over 15,000,000. In 1919 there were 61,257 touring cars manufactured in Canada, with a value of over \$52,000,000. Trucks numbered 7,527, with an aggregate value of \$4,850,000.

You can always depend upon the sincerity of a dog when he wags his tail.

## What One of the Best Known Travellers in Canada Says

"Now I am going to give you an unsolicited testimonial, as they say in the patent medicine advertising. Heretofore I have had a profound contempt for patent medicines, particularly so-called liniments. Perhaps this is due to the reason that I have been blessed with a sturdy constitution, and have never been ill a day in my life. One day last fall after a hard day's tramp in the slush of Montreal, I developed a severe pain in my legs and, of course, like a man who has never had anything wrong with him physically, I complained rather boisterously. The good little wife says: 'I will rub them with some liniment I have. Go ahead,' I said, just to humor her. 'Well, in she comes with a bottle of MINARD'S LINIMENT and gets busy. Believe me the pain disappeared a few minutes after, and you can tell the world I said so.' (Signed) FRANK E. JOHNS, Montreal.

### Increase in Fish Catch.

The total catch of sea fish on both coasts of the Dominion for the month of February was 166,751 cwts., with a value in first hands of \$691,030, as compared with 278,398 cwts. at \$652,970 for the same month last year.

### "Cold in the Head"

Is an acute attack of Nasal Catarrh. Persons who are subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the System, cleanse the Blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System. All Druggists 75c. Testimonials free. 100.00 for any case of catarrh that HALL'S \$100.00 for any case of catarrh that HALL'S CATARRH MEDICINE will not cure. F. J. Cheney & Co., Toledo, Ohio.

### Longest Roll of Thunder.

The duration of the longest roll of thunder that has been accurately noted was 45 seconds.

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy, and years of use have enhanced its reputation.

## THE D. D. D. D. REMEDY

PURIFIES THE BLOOD AND BUILDS UP THE SYSTEM.

Will aid the following constitutional diseases: Weak Stomach, Biliousness, Sick Headache, Indigestion, Gastritis, Loss of Appetite, Constipation, Liver and Kidney Trouble, Rheumatism, Eczema, Skin Disease and Venereal Weakness. Price \$1.00 at your local Druggist or from THE D. D. D. D. REMEDY CO., Phoenix Block, Winnipeg.

BOOK ON DOG DISEASES and How to Feed Mailed Free to any Address by the Author H. CLAY GLOVER CO., INC., 118 West 31st Street, New York, U.S.A.

## Wool's Cotton Root Compound

A safe, reliable regulating medicine. Sold in three degrees of strength—No. 1, \$1; No. 2, \$2; No. 3, \$3 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Family Doctor).

## Bright Healthy Birds Will Sing

The care and feeding of birds is a science with us. Brock's Bird Seed is the epitomized experience of a lifetime. Feed Brock's to your bird and he will be strong and healthy and fill your home with his cheerful song. Brock's Book on Birds, 228 pages, 40 illustrations, regular price 75c. post free. Write to-day for FREE sample Brock's Bird Treat. NICHOLSON & BROOK, 75 Market St., Toronto, Ont.

## "Pain's enemy"—I'll say it is!

WHEN you want quick comforting relief from any "external" pain, use Sloan's Liniment. It does the job without staining, rubbing, bandaging. Use freely for rheumatism, neuralgia, aches and pains, sprains and strains, backache, sore muscles.

### Okanagan Fruit.

Statistics issued by the Okanagan United Fruit Growers for the past year show that the total sales amounted to more than two million dollars; number of packages handled, 808,193; general average price for apples in 1920, all varieties, was \$2.4434, compared with 1.94 in 1919; an increase in shipments of fruit to New Zealand, Great Britain and United States. Prospects for 1921 are very favorable.

There are about 28 species of pine trees in the United States, of which the white pine, Georgia pine, red pine and the great west coast sugar pine are amongst the most valuable.

**ECZEMA** You are not experimenting when you use Chase's Ointment for Eczema and Skin Irritations. It relieves at once and gradually heals the skin. Sample box Dr. Chase's Ointment free if you mention this paper and send 2c. stamp for postage. 60c. a box; all dealers or Edman & Co., Limited, Toronto.

### MONEY ORDERS

Pay your out of town accounts by Dominion Express Money Orders. Five dollars costs three cents.

"Write The Fruit Lands Exchange, Grand Forks, B.C., for Mixed Farms."

WHAT IS YORKSHIRE SERGE? A perfect pure wool for Gentlemen's Suits. It is remarkable for its durability and smartness and being Indigo Blue its dye never fades. Price \$5.50 for 3 1/4 yards suit length, superior quality \$7.00. If 3 suit lengths are ordered linings supplied free. Postage 75 cents. 6 lengths in one order post free. Money returned if not satisfied. Z. Rosenthal, Woolen Manufacturer, 8 Devonshire Terrace, Bradford, Yorkshire, England.

"FALSE TEETH (old), Discarded Jewellery, Watches, Diamonds, Antiques, Ladies', Gents' Wardrobes, Highest Prices. Ellison, 467 Church St., Toronto."

**CORNS** Lift Right Off without Pain

Magic! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Doesn't hurt a bit.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and calluses.

## ASPIRIN

Only "Bayer" is Genuine

Warning! Unless you see the name 'Bayer' on package or on tablets you are not getting Aspirin at all. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Then you will be following the directions and dosage worked out by physicians during twenty-one years and proved safe by millions. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

Mr J. D. Poxon has been seen on our streets with his little red wagon which looks very neat and attractive, and he has unloaded one car of oil at the depot here. he is making regular trips to Swallow.

## QUARTER SECTION

of good land to trade for a Chevrolet or Dodge Car in good condition. Dodge preferred. See Harry Delling, Carbon.

Mr & Mrs Morrison were visitors to Calgary for the week-end. Mr Thomson, manager of The Bank of Toronto, was conducting the business while Mr Morrison was away.

Seeding in this district has been well advanced as a great many farmers have completed their seeding. Another week of this weather will see it all completed.

Mrs N. E. Landon, of Armstrong, B.C., aunt of Mrs Shields, is visiting Mr & Mrs Shields since April 7th.

A hen belonging to Mrs Bavis has laid an egg four inches long, and weighing four ounces.

We noticed on Sunday night at 12 o'clock, Mr Bairds Rooster coming back from a visit across the street. Some bird.

A new Club is being organized, called the Camel Club

Casey (nudding Sid in bed.) "Sid, Sid."

Sid—"What do you want?"

Casey—"Are you awake?"

Sid—"I suppose."

Casey—"Then loan me a dollar."

Sid—"I'm asleep."

We have never given Jimmie Phillips any press-agenting yet. Better late than never, if you want to find a real busy Business right in Carbon take a stroll over to Jimmie's place, and you will find "him up to the ears" in work all the time. He is doing an extensive Automobile Repair Business with the help of "professor Mac" and another able assistant. Thanks.

With regard to the enforcement of these new By-laws, we wish to give as our opinion, that, if some of these Arm Chair Critics would give up a little of the knocking and try and encourage a little more of the "get together spirit," that our town would be then be much better off.

The City Dads have troubles galore. The by-laws they pass, make people sore,

But the solution of the whole matter is,

To make the "howlers" mind their own biz.

But as Doc says "Kin you do that?"

Miss S. Sherry is in the centre of the limelight in Carbon at present, and considerable feeling has been aroused amongst the younger bucks, as to just whose girl she really is. Some of the other girls too, are rather jealous that this little blonde should receive so much attention, but, don't worry girls, the boys will soon tire, and then the field will be left clear for Sandy. Sammy Garrett wishes to announce that he has taken a back seat already.

Work is progressing painfully slow on the new post office and at the present rate of progress, it should be completed by 1931 or thereabouts.

Mr Geo. Malton's new residence must be numbered among the futures, and not near futures at that.

## Red Cross Campaign

Organization Well Underway For Big Effort In Saskatchewan.

With organizations well underway in the northern part of the province and active preparations being made for the southern half, indications are that Saskatchewan will give a good account of itself during the Red Cross Membership Enrollment week, June 5 to 11.

Full direction and complete authority to carry out plans has been vested by the Provincial Executive of the Red Cross Society in a Special Membership Enrollment Committee consisting of Commissioner W. F. Kerr, Regina, chairman; D. H. McDonald, Fort Qu'Appelle, first vice-president; F. C. Grant, Moose Jaw, manager of the Bank of Hamilton, and treasurer of the local branch; Col. Cross, M.L.A., Regina, and Col. Jas. McAr, Regina, president of the Provincial Command G.W.V.A. The active direction of the campaign in the southern part of the province is placed in Commissioner Kerr's hands, while W. F. Marshall, of Saskatoon, is responsible for the north.

The rural municipality is being made the unit of organization in the country districts. For some time past an organizer has been in the field in the northern part of the province arranging for the appointment of chairman and secretaries for the campaign committees in the several rural municipalities and already committees have been set up in over forty municipalities. It is proposed to place two or three more organizers in the field in the near future.

In addition to organized Red Cross branches, active support is being asked for and very largely obtained from former Victory Loan workers as well as reeves, secretaries and councillors of rural municipalities. Saskatchewan enrolled over 10,000 life members of the Red Cross during the war and personal letters are being sent out to each soliciting their assistance.

Pre-campaign literature is being extensively used. A small four page folder making preliminary announcement of the enrollment campaign has been issued. Another four page leaflet has been prepared setting forth the relations existing between the Red Cross and the returned soldiers in Saskatchewan, a supply of which will be forwarded to each one of the 170 branches of the G.W.V.A. in the province.

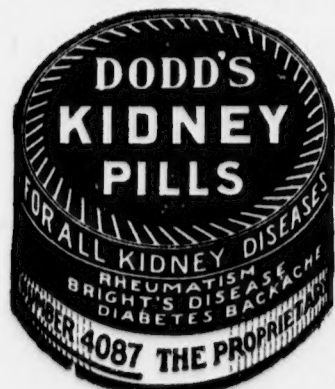

Commissioner Kerr has addressed the annual conventions of the G.W.V.A., the School Teachers' Association and the Saskatchewan Registered Nurses' Association in the last two months, all of whom unanimously endorsed the peace time program of the Red Cross, and pledged their support.

The objective in Saskatchewan is the enrollment of every adult at the annual fee of one dollar and all boys and girls as junior members at 25 cents. The entire proceeds of the campaign among the junior members will be applied to the relief of crippled children whose parents are unable to afford remedial measures.

### The Prince.

"Everyone wonders how the Prince manages to get through all his engagements. By keeping splendidly fit. The Prince takes exercises of some sort every day in addition to fifteen minutes' physical training every morning," it was explained."—Daily Mail.

The principal reason why coins are struck and not cast is that molten metals contract on cooling. Thus counterfeit coins, which are always cast, show fatal variations in size, which authentic shaped coins do not.

## CAN THE DEAF BE MADE TO HEAR?

This question can be answered both ways. If the deafness is due to Catarrh, success is general if the sufferer persists in the use of Catarrh-zone, and thereby drives Catarrh out of the system. Penetrating through the passages of the ear, the soothing vapor of Catarrh-zone relieves the inflammation, destroys the Seed of Catarrh and thereby allows nature to reassert herself. For Catarrhal Deafness, pain over the eyes, plugged nostrils and other symptoms associated with Catarrh, use Catarrh-zone. You'll be more than pleased with the quick improvement in your condition. Two months' treatment, One Dollar, sold everywhere, or the Catarrh-zone Co., Montreal.

## Agricultural Instruction In Manitoba

Large Grant Devoted to Instruction In Agriculture.

An especially interesting feature of the grant to the province of Manitoba made under the Dominion Agricultural Instruction Act which amounted, according to the report on the working of the act for 1919-20, to \$77,113, is the allotment of \$20,000 to extension schools, of \$13,000 to aid in the teaching of home economics, and a like amount to the encouragement and development of boys' and girls' clubs. Thus, nearly two-thirds of the grant is devoted directly to instruction in agriculture for the youth of both sexes. Twenty thousand dollars went towards meeting the expenses of a well-established and thorough going agricultural representative system. The balance of \$11,000 helps towards dairy work, beekeeping, cost of the Killarney demonstration farm, and to soil analysis and survey. How well home economics has been encouraged is proven by the fact that the women's institutes, which held during the year five-day courses to the number of 390 in home economics, including dressmaking and millinery, increased in number and membership, respectively from 17 and 750 in 1914 the year the act came into force, to 120 and 4,800 in 1919. Under an arrangement that exists between the provincial departments of agriculture and education, whereby boys' and girls' clubs and school fairs are carried on co-operatively, in 1919, 220 central clubs and 1,200 branch clubs had sprung into being with a membership of 26,500. At the school fairs, held practically by all the clubs, entries were made of 887 pigs, 871 calves, 356 sheep, 255 colts, 4,433 chickens, 9,792 specimens of cookery, 9,433 of vegetables, 5,000 samples of canning, 1,000 of dairy products, 1,600 of wood-working, and 2,250 of record keeping work. In all, there were about 28,000 exhibits of actual school work. Of the nearly 30,000 club members, it is well worth noting, that fewer than 2,000 failed to carry their projects through and to make exhibits.

## Farmers Are Optimistic

Prospects Generally for a Favorable Crop Season Are Good.

The open weather last fall enabled farmers to do more work than usual on their land, and much is ready for seeding. What the total crop area will be it is hard to say at present. It is generally believed that it will not be larger than last year—if as large—when the area in crop in Alberta was nearly eight million acres, in Saskatchewan nearly seventeen million acres, and in Manitoba somewhat more than six million acres.

There are, however, several districts where a considerably larger area will be put into crop as compared with last year. For example, farmers near Meleod in Southern Alberta say they will have a hundred per cent. greater acreage in crop than last year. A much larger area of land was summer-fallowed than usual last year and this will be put into crop. In the Lloydminster and Battleford areas a considerable number of new settlers will have their land in crop for the first time, while the older settlers generally will seed larger acreages. Farmers generally are optimistic as to their prospects during the coming season.

That he should be buried in a wicker basket was the desire of a Worthing (England) barister.

## Registration of Grimm Alfalfa

Seed Grown by Western Canada Farmers Can Now be Obtained.

The first registration of Grimm alfalfa seed grown in Canada has been made by Don H. Bark, of the Irrigation Investigation Branch of the Canadian Pacific Railway at Brooks, Alberta.

Mr. Bark has been advised by Mr. L. H. Newman, secretary of the Canadian Seed Growers' Association, that the Grimm alfalfa seed grown by six different farmers near Brooks is being registered and that he is sending them certificates of registration. The fields of these growers were inspected last year and the seed offered for registration as Grimm. As a result of the registration, farmers will now be able to have registered seed grown from this stock. This marks a tremendous stride forward for the Brooks district. Seed growers and distributors have been clamoring for this seed for years, and will now be able to procure the pure Grimm alfalfa seed in Alberta.

## Money in Hog Raising

Brood Sows Nearly As Valuable As Good Shorthorns.

There is a pronounced rebound in favor of hogs throughout Ontario and Eastern Canada. The short-sighted policy of many farmers last fall in selling their brood sows is bringing its natural reward in disappointment to those now unable to take advantage of an exceptional demand for breeding stock. Brood sows are today reported to be selling, in some districts, to within \$5.00 of good grade shorthorns. The following items are contained in the last reports on farm conditions made by the Ontario Department of Agriculture:—

"Brant (county) says that good Shorthorn grade cows at an all-day sale brought only about \$95.00 while brood sows fetched around \$90.00. Small pigs are unusually scarce on this market this spring and run from \$12.00 to \$16.00 a pair, according to age."

"Brood sows are in good demand at auction sales according to Kent, Simcoe and Peel representatives, the last quoting prices ranging from \$75.00 to \$125.00."

When the sacrifice of sows was at its height last fall, packers, realizing the inevitable effect, issued reiterated warnings to farmers. Because of the information then issued the worst in a sweep to the abattoirs was stemmed. Many farmers must now realize how valuable that information was to them. This quick rebound in hogs only confirms the business creed of those closest to the livestock industry that the "in-and-out," especially in hog breeding, is his own worst enemy.

### She Followed Instructions.

Among the instructions which a mistress had given her new maid from the country was one to bring in a glass of milk each evening at 7 o'clock. The first evening Jane brought in the glass clasped tightly in her hand.

"Don't do that again; it's bad etiquette, Jane," ordered the mistress. "Always bring it in on a tray."

Next evening Jane appeared with a tray full of milk in her hand.

"Excuse me, ma'am," said the maid. "Do you want a spoon, or will you lap it up?"

### High Price For Pure Bred Stock.

Two records were made at the spring livestock show at Edmonton recently. Sedate Dale, a Shorthorn bull bred by A. M. Steed, of Lethbridge, was sold for \$900, which is the highest price paid for a bull at an auction sale in Canada this year, and thirty cents a pound, live weight, was paid for the prize steer in the calf feeding contest. This steer was shown by Norman Williams, of Vermillion, Alberta.

In Turkey the moment the roof is built over a new house it is customary to hang from the most prominent eave a string of garlic, with an old shoe, to keep off the evil eye.

Children Cry for Fletcher's

# CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

## What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

GENUINE CASTORIA ALWAYS

The Great Sweetener

## Old Fort Ellis and Sioux Indians

Crossing the Plains to Fort Carlton  
Summer 1875.

By O-GE-MAS-ES (Little Clerk).

(Copyrighted)

(Continued)

Gradually some other clerks came in en route to their different appointments. H. B. Round, an Englishman for Peace River, Scott Simpson for British Columbia, Count Von Beneki (Von. Bernstoff his correct name according to Isaac Cowie), an ex-Dragoon officer from Prussia who had got into trouble with Von Bismark and was therefore suffering semi-exile. Fort Qu'Appelle was to be our starting point and there we all went, a brother of Mr. McDonald leader of the party. Mr. Chief Trader, Ewen McDonald, was bound for Isle la Crosse, he having his family with him. Our chief guide was a young French halfbreed named Jeune Homme. A splendid rider and an experienced plainsman. We had travelled together the previous winter and were chummy. Our first night out from Ellis we only made some ten miles and just about bedtime I and Jeune Homme sneaked out of camp, caught and saddled our ponies, and rode back to the fort, where my dogs had been chained up to the pickets. Cautiously entering by a side gate I soon had them loose with the aid of a new file, but had hard work checking their transports at seeing me again. Next day Mr. Ewen remarked in a dry manner, "So your dogs followed after all?" and I innocently agreed to this.

Our trip to Qu'Appelle was uneventful, but my surprise was great on reaching there to note the beauty of the site, and to add to the picturesqueness of the scene there were some fifteen hundred tepees of Plain Crees in the lovely valley and buffalo were reported only a day or two's ride to the southwest. Mr. MacLean was in charge, better known in later years as Fort Pitt MacLean, for in 1885 he and his family surrendered themselves to Big Bear's band. A Mr. McKinnlay joined us here, fresh in from the plains and ordered to Peace River. The days passed busily as a large brigade of loaded carts were being sent to Carlton under our escort.

The valley was a stirring place, and it was a fascinating study for me to watch the Indian braves and note the dancing, gambling and love-making which went on merrily. Little Fox, second war chief of the Crees, was here, and really the most magnificent looking man I ever saw. Eagle featured, over six feet in height, he was splendidly mounted on a handsome sorrel horse which looked like a thoroughbred. A Henry rifle across his saddle bow, a splendid bow strengthened at the back with buffalo sinew, a quiver full of iron pointed and feathered arrows over his shoulder, dressed from head to foot in buckskin richly ornamented with porcupine quills, he truly looked the ideal warrior from one of Fenimore Cooper's novels. I gazed at him with admiration and walking up to him held out my hand. He looked down, smiled at the little clerk and gave me two fingers for a salute. At this time it was said the Crees could put seven thousand fighting men in the field. What a contrast from today, when there are only a few broken remnants of his tribe left.

All our arrangements were ready for a start next day and I was chuckling over the fact of still having my dogs with me. But, alas, that evening news arrived that Chief Factor McDonald was coming, and the flag was hoisted from the staff. My heart sank, and as he drove into the fort he spotted me and sarcastically remarked, "So you thought you were clever in stealing your dogs, but this time they will stay here." I was furious and that evening we had an awful row and I was threatened with all sorts of penalties if I did not shut up. There was no recourse and the dogs stayed, but they fretted and did not thrive after the separation, and next winter the three brothers died. It took me years to get over this what I considered a high-handed piece of injustice.

Mr. McDonald was not through with me yet as he detained the steady ponies we had ridden from Ellis and substituted a wild bunch of untrained ones just in from the plains, saying in his sarcastic way that wild clerks should have wild horses. I was no rider and consulted my friend Jeune Homme about the prospect. He counselled courage and lent me his Indian saddle with small stirrups. There was no doubt I was in an awful funk, and when everything was being hitched up next morning I daltied behind and was the last to mount my wild steed. The brigade, a good half mile long, had crossed the bridge over the Qu'Appelle River when my mare was roped and led up, and I rather foolishly got on her inside the square. The ropes were taken off, but she simply stood trembling while Mr. McDonald and the spectators were grinning with amusement at the prospect of seeing the young Canuck bucked off. I gave her a crack with the whip, when up she went in the air, then three times round the square like a Jack Rabbit. At the last round I heard a yell and crouched on her neck, the bar over the big gate swept my hat off. On she flew after the party, jumped into the river, swam across and circled the brigade several times before they reached the opposite hill. Wonderful to say I kept my seat that day, but some little time afterwards she bucked me off right in front of Mrs. McDonald, much to her and the children's amusement and my own mortification. However, before we reached Fort Carlton she was tame enough.

Sunday came and a rest day was called. Count Von Beneki electrified us all by appearing in full dress with a top hat and was paying attention to a young woman who was with Mrs. McDonald. Needless to say the hat did not last long and was promptly made a football of, and in consequence we were challenged individually and collectively to a duel with either swords or pistols, he having both with him, and very handsome weapons. This we naturally refused, but Round, who was skilled in boxing, counter-challenged him with the gloves. This he accepted and was knocked out in short order. Poor Beneki was ordered to New Caledonia, somewhere near where Fort George is now. I heard from him twice, and then we lost track of each other.

(To be continued)

### International Air Agreements.

Geneva.—International aerial agreements are beginning to come into the League of Nations Secretariat for registration. Franco-British and German-Swiss air conventions have been received. They are almost identical in their principal provisions. Both apply only to private and commercial craft.

Egypt was the first country to have a military organization, about 1620 B.C.

### Death of Wealthy Packer's Son.

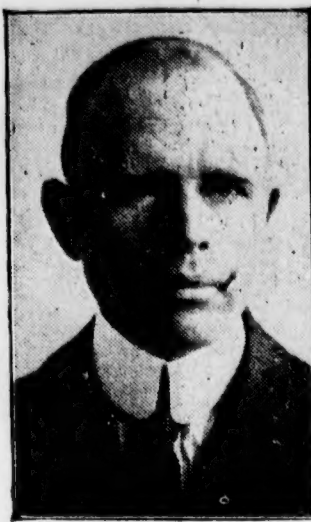

Los Angeles.—John P. Cudahy, son of the late Michael Cudahy, internationally known meat packer of Kansas City, and found dead in his bedroom with his head shattered by a shotgun wound, committed suicide after failing to negotiate a \$10,000 loan with a Chicago bank, Detective-Sergeant McMahan declares.

### Quebec Liquor Law

Quebec.—The Provincial Government will grant no delay to the liquor dealers of the province in disposing of their stocks, Premier Taschereau states. All liquor stocks must be disposed of, or handed over to the control of the commission on May 1, when the new law becomes effective.

Cornell was the first American college to possess a professorship of American history.

### Passenger Service Expert

R. G. McNeillie, Assistant General Passenger Agent of the C.P.R. at Winnipeg.

### Putting on The Lid

Will Obey Mandate of Prohibition In Ontario, Says Drury.

Toronto.—Premier Drury, concluding the legislative debate early this morning on the Ontario Temperance Act amendments, referred to the statements of "a man prominently identified with the anti-prohibition forces" that it would be impossible with the large wet minority to enforce prohibition.

Premier Drury declared: "It amounts to a declaration of anarchy." He added: "If we ever had a mandate from the people for prohibition enforcement we have it now. It is our duty to see that no such doctrine as I have just quoted can be preached and got away with."

### Thinks Swearing All Right

Yes, providing the provocation equals the offence of Jones stepping on Smith's sore corns. Far better to use "Putnam's" Painless Corn Extractor, it does lift out corns in a hurry. No corn can last if "Putnam's" is applied. Refuse a substitute, 25c every where.

### Honor Roll For B.C.

Victoria, B.C.—The Victoria Chamber of Commerce is gathering the names of the men from British Columbia who gave their lives in the Great War, to be used in connection with the plan for laying out an Empire Avenue as a war memorial.

### Gompers Gives Message

Toronto.—President Samuel Gompers asked for a message to the workers of Canada before his departure for Washington, replied: "The safety of democracy and civilization depends on the unity and practical, sane development of the great international trade unions."

## Palpitation Of the Heart

Many people are kept in a state of morbid fear of death, become weak, worn and miserable, and are unable to attend to their household, social or business duties through this unnatural action of the heart.

To all such sufferers Milburn's Heart and Nerve Pills will give prompt and permanent relief.

Mrs. F. K. Gauthier, Tilbury, Ont., writes: "During 25 years past I was greatly troubled with palpitation of the heart, and sometimes so much so that those around me thought I would die at any moment, being so much weakened by the sharpness of the palpitation which would last sometimes up to 3 hours. I had the doctor who kept me taking his medicine to overcome the disease, but to no effect. There was no change at all for the better. Two years ago a friend advised me to use Milburn's Heart and Nerve Pills. I began to use them at once, and at the second box I began to feel some relief, so I continued to use them according to directions and now I am perfectly well. Before using the pills I never weighed 100 lbs., now I weigh 117, and feel as if I were young although I am over 66 years of age."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## Formation of Wheat Pool By Western Farmers

Canadian Council of Agriculture Will Proceed With The Proposition.

Winnipeg.—The special committee appointed by the Canadian Council of Agriculture to investigate the question of the wheat pool, met here and decided to proceed with the proposition and application will be made to the respective provincial legislatures at their next sessions for charters of incorporation. The action, it is stated, was taken while recognizing the fact that the proposed federal grain inquiry may be directed towards embarrassing the efforts of the farmers in this direction.

The proposed association will have as its nucleus the United Grain

Growers, Limited, and the Saskatchewan Co-operative Elevator Company. The former includes the Grain Growers of Manitoba and Alberta. The purpose of the association will be the co-operative marketing of the grain crop of Canada commonly known as the wheat pool.

The members of the committee present were: H. W. Wood (chairman), Alberta; Col. J. Z. Fraser, Ontario; J. B. Missetman, Saskatchewan; J. L. Brown, Manitoba; Rice Jones and J. F. Collier, United Grain Growers; Hon. George Langley and J. Robinson, Saskatchewan Co-operative Elevator Company.

## Mrs. Lloyd George On Electioneering Campaign

Says Bolshevism Is Destroying Cherished British Institutions.

London.—An echo of the Prime Minister's famous speech accusing British Labor leaders of revolutionary designs was heard at Bedford when Mrs. Lloyd George who is speaking in the interests of the new postmaster-general in the Bedford by-election said:

"We have beaten Prussianism; we must now prepare to beat Russianism. The disciples of Lenin and Trotsky are among us, bent on destroying our cherished institutions and bringing destruction upon the nation."

Hon. Frank Kellaway, the postmaster-general, is opposed by F. Riley, secretary of the Postal Workers' Union.

### Another Record Egg.

Portage la Prairie, Man.—The "big egg" record has shifted again, this time from Victoria to Portage la Prairie. Warner Stewart's oviferous prodigy is a Buff Orpington which laid an egg weighing seven ounces and is 9 1-16 inches in circumference. Mr. Stewart keeps no ducks, geese or ostriches.

## RHEUMATISM Is Yours Acute or Chronic?

In either case you'll get such results from good old "Nerviline" which has five times the pain destroying power of ordinary remedies. Nerviline gives results because it penetrates to the source of the pain, because it contains ingredients that destroy rheumatic pains. It is the unusually bad case that proves the power of Nerviline. Suited for young and old; used internally and externally for many purposes, 35c at all dealers.

## Irish Outrages Continue

Guerilla Warfare Proceeds In Erin With Unabated Violence.

Dublin.—Guerilla warfare in Ireland continues with unabated violence. Some of the cars of a train conveying military police were derailed between Gortalea, county Kerry, and Castle Island, county Kerry, and subjected to machine gun fire from a ruined building. But the attacking party were driven off. The police suffered no casualties.

Nine houses in Tralee were bombed. These included the offices of the newspapers, Kerryman and Liberator, the printing machines of which were wrecked. There were no casualties. Several attacks on police barracks in various parts of the country are reported.

### Admiralty Not Seeking Our Coal.

London.—Colonel L. A. Amery, Under-secretary of State for the Colonies, replying to a question in the House, declared that the British Admiralty had made no inquiries in regard to coal supplies either from Canadian or United States sources.

### Rejects Printers 44-Hour Week.

Helena, Mont.—At the end of a two-day session here the Montana Printing Employers' League announced that the 44-hour week demanded by the printing trades crafts of Montana will not be granted May 1.

## Debate on Militarism

Eight Thousand Canadian Cadets Will Be Trained By Militia Department.

Ottawa.—During the debate on the militia estimates in the House of Commons the estimate of \$450,000 for cadet services came up. Hon. Mr. Guthrie said 8,000 cadets would be trained during the summer.

O. R. Gould (Assiniboia) declared there was a "war party" in Canada supporting these estimates. He opposed militarism under present conditions. He deplored the fact that the war party in Canada would lead the country into such large and extraordinary expenditures.

Brig-Gen. Griesbach (Edmonton) declared that in his section of the country nearly all militia men had enlisted as soon as they could.

The war had proved the previously trained men the best in the war. In 1914, 1899 and 1884 militia estimates had been criticized "with no greater intelligence" than was shown by critics today. Members had then asked "where is the enemy?" General Griesbach praised the military spirit in Canada.

"If Canada had contained many people such as the Hon. Member for Brome and the Hon. Member for Assiniboia, then this country would have curled its tail between its legs when danger appeared," General Griesbach declared.

Mr. Guthrie declared the estimates to cover national defense were in all \$17,241,000 or \$2.15 per head. The U.S. defense outlay was over \$13 per capita. The modest program put forward should meet with approval. Pay lists, food and clothing were more than 100 per cent. higher now than a few years ago.

Dr. Peter McGibbon (Muskoka) declared the opposition had used the same arguments in 1914 that they were using now. Great Britain was not ready for war until 1915 or 1916. The trained French troops had saved civilization in these days.

### Child Burned To Death.

Winnipeg.—Playing in a haystack with his 4-year-old brother, the year and a half old son of Hugo Bergner, residing a short distance from this city, was burned to death. While playing in the hay the boys had evidently set it on fire.

### S. A. Officers Released.

London.—All the Salvation Army officers imprisoned in Russia have been liberated, according to a despatch received by General Booth from Salvation Army headquarters at Helsingfors, Finland.

## If Losing Looks or Strength, Read This Carefully!

Once you were robust, bright and happy. To-day you are dull, worried, failing in vitality and appearance. Just when you should be at your best you're played out and need a cleansing medicine. Get the right remedy and your blood will redde, your vivacious spirits will soon return, and you'll be yourself again. You should use Dr. Hamilton's Pills—a truly wonderful medicine. It drives away headaches and weariness, lifts the load from your liver, tones up the stomach, puts you on your feet in no time. Use Dr. Hamilton's Pills and watch the result, in a week you'll feel like new. All dealers 25c, or The Catarrh-hozone Co., Montreal.

# The Splendid Services Of the Press to Agricultural Development

In an address at the Agricultural Conference held recently at Saskatoon, W. A. McLeod, Editor of Publications for the Saskatchewan Government, said in part:

"The press, as usual, has the word. Having the word, I can speak dogmatically. The services the press has rendered agriculture—and I include in this the daily, weekly and agricultural press—are so great and cover such a wide field that were I now a genuine newspaper man, it would be too much like boasting were I to enumerate them. I hold the same relation to journalism today which many of you here do to farming. For I edit a serious, dignified government publication which does not have to depend on the number of its subscribers or its advertising patronage, to make a living for the editor."

"The press, in serving agriculture, has rendered a great service to you men who are also serving agriculture in the same field and the highest of all, the field of education. The profession best represented at this conference is that of the technical agriculturist, who was popularly, or rather unpopularly known as a 'book farmer'. There is still some dispute as to whom the credit belongs for 'book farmers' being heard to in three days with the keenest interest by the very men who used to speak of 'book farmers' with ridicule or contempt a couple of years ago. Some of you told that this changed attitude is owing to the experimental farms today being more numerous, larger, better equipped and doing better work than they did a generation ago. Others believe that it is due to the advance made by our agricultural colleges which are taking the university to those who cannot come to it, and still others give the credit for this changed attitude to the progress made by our federal and provincial departments of agriculture."

"If I grant you that a general advance has been made all along the line, but maintain that it was the press, more than any other agency that lifted the heavy of the 'book farmer' and earned him a respectful hearing today whenever he has any message of importance to give the public, and wide publicity for what he may say if he can tell the story in an interesting way. And I further claim that the success of Better Farming, Training, agricultural short courses, and the increasing knowledge and appreciation of the valuable work done at our Agricultural Colleges and experimental farms is in a large measure due to the publicity given by the press. 'Body and Kipling' tells of a tribe in the very early history of our race, which had just fought a terrible battle with a rival tribe and had come off victorious chiefly through the prowess of one warrior who had performed prodigies of valor, but when the tribe had a feast to celebrate the victory, the bodies of the slain probably forming a substantial portion of the banquet—and the hero was called upon to make a speech, he broke down ignominiously after a few minutes' effort. The speech another man, who had not been in the fight at all but had been at the moment of fighting on the day of the battle, and he described the whole affair, the triumph of his tribe and the slaughter and rout of the enemy, until all the members of the tribe were in transport, completely carried away by the eloquence of this after-dinner speaker, and howling their battle cries as the scenes of the combat vividly presented to their imagination. But after they had cooled down a little the elders of the tribe came to the fore and decided that the orator should be slain, and he was promptly knocked on the head. They found him guilty of possessing 'the magic of the necessary word,' and they held that it would be a great menace to the welfare of the tribe if they were to give extraordinary gifts were permitted to give the imaginations and passions of men at will."

"Now it is this 'magic of the necessary word,' which the editor must possess if he is to be a successful editor. But we have recently improved on the primitive methods of our ancestors in this field as we have in ag-

riculture. We have made our editors safe by making them editors. There is no need for killing the editor on the head for fear he should use this mysterious power to exalt himself, as we keep him so busy booting for his town, his province, his party, the prospects for the next crop, 'Better Farming' and 'Back to the Land' movements, that he has no time nor opportunity to boost for himself. Once in a while an editor breaks loose and becomes a millionaire, a lord, or a president of the United States, but these are rare exceptions to the general rule. The fate of the average editor is far sadder than that of the poor victim man told about in the Bible."

"Now there was a little city and town within it, and there came a great king against it, and besieged it, and built great bulwarks against it."

"To visualize the services which the press is rendering to agriculture, try and imagine this province for one whole year without one newspaper, daily, weekly or agricultural. There is no calamity of drought, hail, rust, and so on, which would seriously affect the welfare of the farmers of the province, and therefore of every person living in the province, as to be for twelve months without any authentic news of what was happening in the province or the outside world. You cannot imagine a hundred-fold by passing from mouth to mouth, would make life in our cities and towns most miserable and life in the country quite impossible. Omit from our daily and weekly papers every reference to agriculture, and you could not deal with a heavier blow at progressive agriculture."

## Germany Not Paying

Would Be Better to Commence More Definite Surrender Process

It will soon be time for the allied supreme council to make known its intention towards Germany in the event of her continued refusal to pay the reparations bill. The present policy of occupation does nothing more than impress a few thousands of her population. Such revenue as may be exacted through an allied customs zone will merely contribute towards the cost of maintaining the troops on foreign soil. If it is intended that the debtor nation shall discharge her obligation it would be better to commence a more definite surrender process. The longer the delay the more difficult it will be to apply stern measures.—Victoria Times.

## For the World's Title

Patrons of a Boston restaurant noted that on the wall a short of paper on which was printed in bold characters:

"The umbrella in the stand behind the champion heavyweight fighter of the world. He is coming right back."

Five minutes later umbrella and paper had disappeared. In their place was another notice:

"Umbrella is now in possession of the champion marathon runner of the world. He is not coming back."

## Canadian Photoplays

A company has been organized to produce photoplays at Hamilton, Ont. for display on the walls of British Empire. The company has taken out a Dominion charter and is capitalized at \$150,000. Eastern Canadian capital is behind the scheme.

"The Italians place their egg in cold water and remove it just as the water boils. Then they break it on a plate and eat it with bread."

## For Better Farming Methods

Hon. C. M. Hamilton, Minister of Agriculture in the Saskatchewan Government, who called the conference of agricultural experts held at Saskatoon.

## Sunflowers Increase Dairy Profits

Reports Indicate That New Fodder Is Destined a Standard Crop

"Now that winter feeding of stock is finished, reports on the results of sunflower feed are coming in from many sources, and all tend to indicate that this new fodder is destined to become a standard crop in the prairie provinces of Canada. It seems that practically everybody who has experimented with the sunflower is going to plant at least double the acreage of last year and silos will be springing up in every direction."

A typical example of what this silage means to the dairy farmer is given by Bert Tiffin, of Lethbridge, Alberta. In December, January and February, 1919, his cows produced milk to the value of \$1,289.93. Last year Mr. Tiffin planted five acres to sunflowers and from the same number of cows he got milk that brought him \$1,648.04, an increase of \$358.11. His cost less than \$500. Previously he needed all his quarter section to supply feed to his herd, but his sunflower yield was so large that he has been able to spare dry tons of alfalfa, worth about \$700, for the market so that even with the expenses of his silo he will have a net cash surplus of more than \$700. Adding in the value of his silo he has made more than the sunflower fodder has cost him—less than \$200 increased revenue to him.

## The Eight-Hour Day

Edison Glad It Was Not Invented When He Was Young

Today I am wondering what would have happened to me by now if 50 years ago some one else had converted me to the theory of the eight-hour day and convinced me that it was not fair to my fellow-workers to put forth my best efforts in my work. I am glad that the eight-hour day had not been invented when I was a young man. If my life had been made up of eight-hour days I don't believe I could have accomplished a great deal. The country would not amount to as much as it does. The young men of 50 years ago would have been afraid they might earn more than they could spend. They were shirkers in those days, to be sure, but they didn't boast of it. The shirkers to conceal or excuse his shirked and lack of ambition.—Thomas A. Edison.

## B.C. Elk For London Zoo

Three British Columbia elk—two three-year-old bull and two-year-old cows—have been shipped by express from Vancouver to St. John, N.B. These elk will sail for England. These elk are destined for the Zoological Gardens in London. This is the first shipment of elk ever made out of this province to England."

A fish that grows and moves like a cat is found in certain parts of South America, Africa and Australia, and this is considered by scientists to be an many respects the most wonderful fish in the world.

# Believes That the Day Of the Battleship Has Now Been Passed

## U.S. Sympathy

### Is With Britain

Bishop Says Loyal Sentiments Do Not Represent General Opinion. Addressing the Canadian Club, Montreal, on "traditional ideals of the English-speaking nations," the Right Rev. Thomas Gailor, Bishop of Tennessee, and President of the House of Bishops of the Protestant Episcopal Church in the United States, said that "all through the south and middle west and west there is today the most cordial and sincere feeling of brotherly sympathy with Britain."

## Porcupines Good Fighters

Hunting Them Is Not a Sport To Be Desisted

"On the farm which I was managing in the East Africa Protectorate, we had great numbers of porcupines," says a recently returned traveler.

"They used to have their holes in the rocks of the escarpment, and at night would come down to the cultivated plots and do a great deal of damage. They were particularly fond of potatoes, and would root out a whole row of them, moving from plant to plant and undermining each separate one. As soon as we noticed they had begun their depredations on any particular plot my brother and I organized a porcupine hunt."

"One had to be pretty quick in one's movements for porcupines have a nasty way of charging backward and transfixing with their quills any flesh, human or canine, that happens to be in the way. I have known very bad wounds inflicted in this way, the quills going through a man's leg as easily as a sharp bodkin."

"Dogs have to be well used to the work or they have not a chance. A porcupine will stop suddenly in full flight, and as it were, instantaneously change its mind, and come charging full backward. The best dog I ever had, a bull terrier, was killed by this trick. He was absolutely without fault in the circumstances, but when the advancing avalanche of spikes, and was in consequence speared right through the heart. I can assure you that hunting porcupines is not at all a sport to be desisted."

## Poland Over-Populated

Estimated to Have Nearly Two Million Landless Peasants.

With the possible exception of Italy, Poland has some of the worst overpopulated rural districts of any country in Europe. Former Russian Poland is estimated to have one and a half million landless peasants. The surplus of labor and the prevalence of little cottage holdings too small to cultivate with improved machinery are largely responsible for the backward state of Polish agriculture. These conditions are engaging the attention of the Polish diet, which passed an agrarian reform bill last July—not yet, however, put into effect. Its provisions are intended to promote the formation of small farms of about fifty to one hundred acres in area.

While other manufacturing industries are at a standstill, the manufacture of munitions is rapidly developing. Two large companies are actually building munition works in Poland, one of which is intimately connected with the British and Canadian governments. Preparations are being made for opening an explosive factory.

## Not Her Philly

Mr. Pack—"Say, what time I came by telling my wife what time I came home this morning?"

"Well, I don't know," said the lady. "I don't tell her. She asked me what time you came in and I only said I was too busy getting breakfast ready to look at the clock."

Admiral Sir Percy Scott, commander of the aerial defense of London in the world war, has no use for battleships. He believes the British navy would be better off if it spent the \$400,000,000 battleship industry on construction in research and providing new weapons of warfare.

"The late war," Sir Percy said, "showed that the only safe policy as regards battleships was to allow them away as far as possible from the money. If we go to war now with France I do not think our battleships will be safe unless we construct a harbor to contain them in Iceland."

"Personally," continued Sir Percy, in a newspaper interview, "I am fully in accord with Rear-Admiral Adolphus K. Brown, who ought not to spend one penny on battleships, but whatever money we may have to spare should be laid out on research work. Rear-Admiral Adolphus told the House of Commons that if we built new battleships we should also have to provide new bases, great cost at Halifax, Bermuda, Jamaica, on the west coast of Canada, in New Guinea and at Singapore. I say this nation, that the money we ought not to spend one penny on battleships, but whatever money we may have to spare should be laid out on research work. Rear-Admiral Adolphus told the House of Commons that if we built new battleships we should also have to provide new bases, great cost at Halifax, Bermuda, Jamaica, on the west coast of Canada, in New Guinea and at Singapore. ## World Happenings Briefly Told

Doctors have declared a general strike at Avila, Spain.

British Columbia will send a large number of men to prairie farms this year.

The British Admiralty deny that ships are being built for Japan in Great Britain.

The wife of Bela Kun, the former Communist dictator, has been expelled from Italy.

Complete cures of sleeping sickness are reported by Professor Clevede and H. Larvier of the Pasteur Institute.

Switzerland will not resume commercial negotiations with Russia until the Soviet's debt has been paid or guaranteed.

A report from the British Labor department shows that the cost of living in Great Britain declined eight points in March.

General Wrangel, former head of the south Russian Government has established a so-called Russian Government at Constantinople.

Lord Finlay will preside over the inquiry which is to be held in England into the embargo which prevents live cattle landing in England and being fattened.

Calgary coal dealers and operators will reduce their prices by \$1.15 a ton if the railroad companies will reduce their freight rates 20 per cent. during May, June, July and August.

Soviet officials are putting into effect a decree proposing that the Russian art treasures, seized from palaces and private individuals shall be placed on the market and sold abroad to buy food.

## "My Back Is So Bad"

**PAINS** in the small of the back, lumbago, rheumatism, pains in the limbs all tell of defective kidneys.

Poisons are being left in the blood which cause pains and aches.

The kidneys, liver and bowels must be aroused to action by such treatment as Dr. Chase's Kidney-Liver Pills.

There is no time for delay when the kidneys go wrong, for such developments as hardening of the arteries and Bright's disease are the natural result.

One pill a dose, 25 cents a box, all dealers, or Edmanston, Bates & Co., Ltd., Toronto.

**Dr. Chase's Kidney-Liver Pills**

## Education in Alberta

Rapid Growth of Educational Facilities of the Province.

One hundred and seven school districts, covering an area of eighteen hundred square miles, were formed in Alberta in 1920, an indication of the rapid growth of the educational facilities of the province. At the end of 1920 there were 3,553 schools, or nearly six times as many as in 1906. During the past fifteen years an average of about two hundred additional schools have been formed per year, and attendance at schools has increased from 24,245 to 121,567. The amount of Government grants to schools increased from \$170,315 in 1919 to \$1,018,068 in 1920.

## HOW RHEUMATISM CAN BE OVERCOME

Not By Rubbing, But By Enriching the Blood.

Rheumatism is a disorder of the blood. It attacks people when the blood is overcharged with acid and impurities, thus setting up inflammation in the muscles and joints. Wet weather or cold weather may start the tortures of rheumatism, but it is not the cause. The cause is in the blood. Victims of this malady have every reason to fear the first dull ache in the limbs and joints, followed by sharp pains through the flesh and muscles; these are the symptoms of poison in the blood, which will shortly leave the victim pain-racked and helpless. Liniments, hot applications and rubbing may give temporary ease, but cannot possibly root the trouble out of the system. That can only be done by enriching the blood. This new blood drives out the poisonous impurities, and the rheumatism disappears. If you are a sufferer from this painful malady, begin the use of Dr. Williams' Pink Pills and see how soon the pain and stiffness of the joints fade away. Among those who have benefited by the use of these pills is Mr. Freeman Irving, Baxter Harbor, N.S., who says: "Some time ago my blood was in a terrible condition, leaving me very much run down, and with boils breaking out on my body. To add to my misery rheumatism set in, and I not only suffered greatly from the pain, but could only get around with the greatest difficulty. After trying several medicines without much success, I decided to give Dr. Williams' Pink Pills a trial, as they had been warmly recommended to me. I think I used nine boxes altogether, but the results met my every expectation, as both the boils and the rheumatism disappeared. Naturally I feel that I cannot praise the pills too highly."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50c a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## To Learn Railroad Engineering

Chinese Coming to Make Study of Canadian Railroads.

For the purpose of studying railroad operation, six Chinese students are coming to Canada to spend three years in the service of the C.P.R. according to a statement made by G. M. Bosworth, chairman of the C.P.R. Ocean Services, who has returned after spending two months in the Orient. The Canadian road was selected over all roads in North America. The students will arrive on the steamer Empress of Russia, due shortly.

Millers' Worm Powders will drive worms from the system without injury to the child. The powders are so easy to take that the most delicate stomach can assimilate them and welcome them as speedy easers of pain, because they promptly remove the worms that cause the pain, and thus the suffering of the child is relieved. With so sterling a remedy at hand no child should suffer an hour from worms.

## The Manx Language.

The Manx language must be either very difficult or else exceedingly convenient, for Lord Raglan, speaking before the Society of Genealogists in London, said that he had never met two persons who agreed as to the spelling or meaning of any one word in the Manx language.

The smallest number of teeth dish-ed out by Nature falls to the lot of that great creature, the narwhal, which has only two.

Minard's Liniment for Dandruff.

W. N. U. 1365

## Picturesque Dress Of Dark Red Taffeta

By Marie Belmont.

The quaint modes of Victorian days are recalled in this lovely dress. It is originated in dark-red taffeta. No sleeves are united with the tight-fitting bodice, but around the armholes and the neck line a tiny ruche of white lace is attached. The chief decorations on this dress are bands of very tiny black beads. This trimming outlines the bodice and is also used with good effect on its lower part. The skirt is somewhat longer than those that have been so fashionable, and undoubtedly anticipates the new length. It is elaborated with ruches of taffeta and bands of beads.

## Knowledge.

Most of the things you think you know are only things told you by someone who was told by somebody else who heard it.—Detroit Free Press.

If one be troubled with corns, he will find in Holloway's Corn Remover an application that will entirely relieve suffering.

J. Fenimore Cooper couldn't write unless he had gumdrops to chew. He bought them in large quantities, and as he munched them he evolved the stories for which he is famous.

Minard's Liniment for sale everywhere.

In the last examinations held at the medical school of University College, London, five out of the six medals awarded for proficiency in studies were won by women.

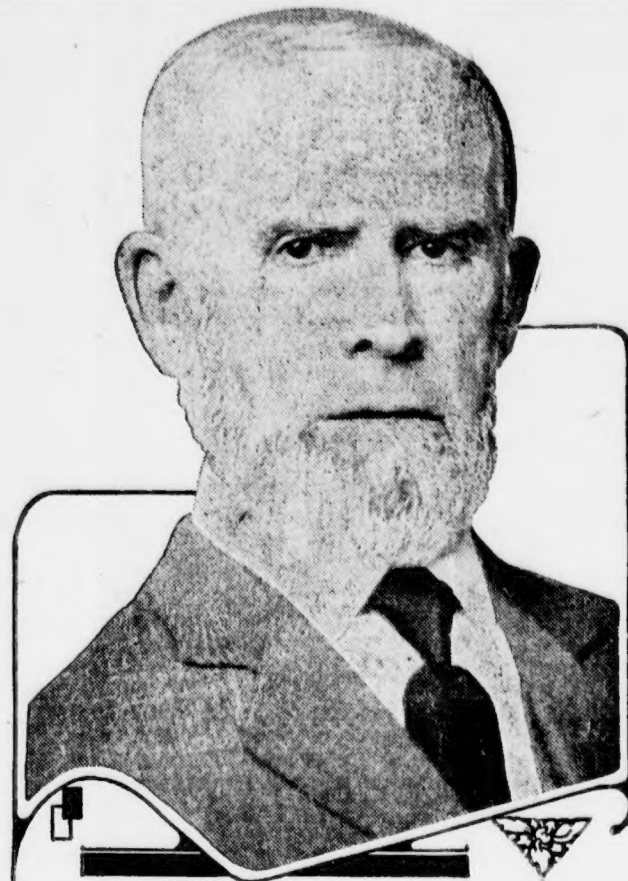

## SHE TOOK HER MOTHER'S ADVICE

Now is in the Best of Health because she took Lydia E. Pinkham's Vegetable Compound

Kessock, Sask.—"My mother has taken Lydia E. Pinkham's Vegetable Compound and upon learning of my troubles advised me to try it, as I seemed all run down after the flu and had leucorrhoea very bad. I have taken Lydia E. Pinkham's Vegetable Compound and Lydia E. Pinkham's Blood Medicine and used the Sanitive Wash, also Dr. Brown's Capsules and Prescription and am much better in every way. I am willing for you to use my letter as a testimonial as I recommend your medicines."—Mrs. IRENE NELSON, Kessock, Sask.

It is not always in business that a woman is forced to give up her work on account of ill health. It is quite as often the woman who does her own work at home. When backaches and headaches drive out all ambition, when that bearing-down sensation attacks you, when you are nervous and blue, the one great help for such ailments is Lydia E. Pinkham's Vegetable Compound.

## Quaker Minister Is Grateful to Tanlac

Rev. Parker Moon

Nearly everybody in Southwest Missouri either knows or has heard of the Rev. Parker Moon, who for a full half century has devoted his life and talents to Sunday school and organization work for the Society of Friends or Quakers.

"Uncle Parker," as he is more familiarly known, came from fine old rugged Quaker stock, and there is not a better known or more highly respected citizen in that part of the state. In referring to his remarkable restoration to health by Tanlac, he said:

"About five years ago I suffered a general breakdown. My principal trouble was nervous indigestion. My appetite was very poor and my food seldom agreed with me, and I had to live on a very restricted diet. I suffered a great deal from headaches and dizzy spells; I had severe pains across the small of my back and was badly constipated most of the time. In fact, I was so weak and rundown I was not able to attend to my duties. This condition made me very nervous and I could not sleep at night. Frequently I would lie awake most all night and was in that condition more or less for five years. My

physician said he could not do anything for me and suggested a change of climate. I then moved to Texas and went back and forth three times but did not get the relief I had hoped for. Finally, I got so bad off I was not able to get around with any degree of comfort. I was also told I had heart trouble.

"I had read about Tanlac and, as it had been very highly recommended to me, I decided to try it. I got a bottle and had taken only a few doses until I could notice a marked improvement in my condition. I noticed especially that I was not troubled any more with sour stomach after eating, which was a great relief. I kept on taking Tanlac until I fully regained my health. My appetite is splendid; I enjoy my meals and I do not find it necessary now to take any laxative medicines of any kind. I can sleep much better and am not nearly so nervous."

"I take great pleasure in recommending Tanlac to anyone who needs a good system builder, or who suffers with stomach trouble. I have recommended Tanlac to a great many of my friends and am pleased to reach others by giving this statement for publication."

## Nova Scotia Coal Output.

The Commissioner of Works and Mines, Hon. E. H. Armstrong, has reported to the legislature that 5,687,970 tons of coal were mined in Nova Scotia during 1920, an increase of 684,213 tons over 1919.

**Sores Flee Before It.**—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Eclectric Oil. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

## German Color Scheme.

Germany seems to be undergoing rapid color changes. A few weeks ago things were reported "black." Then we were told the people were feeling "blue." They claimed to be "green" about the origin of the war, and went "purple" with rage when the Allies demanded reparation. They acted as if they had a streak of "yellow" in their make-up, although investigation showed they were in "pink" of condition to stand the financial strain. The latest is that they are turning "red." But there's one shade to which they are immune. They never act "white."—St. Thomas Times-Journal.

## Wire Service For Far North.

Communications with the Far North will be maintained this summer by means of an increased telegraphic service between Peace River and Edmonton, according to R. C. McDonald, superintendent of Government telephones.

## Would Perpetuate Armistice Day.

In line with the suggestions made before the special parliamentary committee on soldiers' civil re-establishment, H. M. Mowat (Parkdale), has filed a resolution asking the House of Commons to affirm that it is desirable to perpetuate the triumphant conclusion of the war by selecting each year the Monday in the week in which November 11 (Armistice Day), occurs, as Armistice Day and that "general thanksgiving to Almighty God" be proclaimed.

**Cuticura**

**Talcum**

Is so soothing and cooling for baby's tender skin after a bath with Cuticura Soap.

Soap 25c. Ointment 25c and 50c. Talcum 25c. Sold throughout the Dominion Canadian Depot: Lyons, Limited, 344 St. Paul St. W., Montreal.

Mr King Kelly was a visitor to Carbon last week. Watch for developments very shortly.

We regret to have to announce that our genial doctor G. L. McFarlane, is very shortly to leave our midst, for the purpose of attending a Surgeon's course at a big college down East. We will all miss Doc., and we hope that his stay down there will not be for so very long, and that he will not forget our 'lil ole town' when his schooling is finished.

Gee, but there is a great old line-up of taxis in front of the hotel each morning. This is surely a sign of prosperous times ahead in Carbon. We understand that the line-up will be augmented very soon, by a couple more. What we say is: "the more the merrier." Would like to suggest to the Council that they set a time limit for the "parking" of these taxis in front of the hotel.

Who is this young and good-looking gentleman, who claims to have the option on all our 'Belles' about here? We certainly would like to get acquainted and then perhaps he will give us the whys and wherefores of his captivating ways.

Joe Fitzpatrick (the kids all know him) is visiting in Carbon. We are sorry to notice that Joe is a bit crippled up. We wish him a speedy recovery.

## PUBLIC NOTICE

Rev Schmidt of Calgary Evangelist will be at the German Baptist Church, on Sunday May 1st. Sunday School starts at 10 o'clock. After Sunday School Rev Schmidt will preach also in the afternoon about 3:30, and in the Evening at 8:30, service for the young people.

**GERMAN BAPTIST CHURCH**

## NOTICES IN POST OFFICE LOBBIES

Postmasters are warned against allowing notices other than Post Office notices from being exhibited in the lobby of the Post Office. The Department is aware that pressure is often brought to bear upon Postmasters to exhibit notices of meetings for charitable and religious purposes, "Lost" and "Found" notices, etc, but it is considered that the Post Office proper should be given up wholly to the Post Office in order the official notices of the Department may receive the undivided attention which the public interest require.

Mr H. M. Thorburn was ill on Friday evening and could not make his debut at the new Jazz Hall.

Mr McLeod of the Merchants Bank of Canada Staff we are glad to say is again reinstated, but Cory says Mac is only filling in.

Miss Nellie Morris of Calgary is visiting her sister Mrs C. H. Irwin.

We are very pleased to say that Mr Jacobson is surely a regular guy. He certainly showed the citizen spirit on Friday night.

Mr George McNeil & Miss Nora Kettleston motored to Calgary on Friday and returned Sunday.

Mr John McLean cut his ear very badly on Friday evening. Nothing serious, only excited.

Mr Harry Doling has changed his name to Rip Van Winkle. Harry slept with one eye open but accidentally missed the dance.

Boys of the survey gang have laid out a new tennis court down by the depot. Tennis players are heartily invited to bring your own racket and enjoy a game. Balls furnished free.

Mr Stanley Torrance and a party of friends, were out to see his farm on Sunday, and he reports the Gophers were very shy as they kept to their dug-outs, so the result of the gas attack was not certain.

**Some Good Advice to our local Poultry Amateurs.**

**Natural History Is Unfolded in Restaurant.**

San Francisco, Cal. April 26th. A natural history wonder was unfolded during a fire in a restaurant here. The cook allowed some grease to overflow on the range, causing a blaze which soon spread to the window where stood a basket of fresh ranch eggs. The heat caused several of these brand new darning-echoes to pop open with the result that a chicken was disclosed in each. The theory is that the heat accomplished in a few minutes the incubation of which under a hen would require twenty-one days.
